

ABA:70203489

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into two main regions by a vertical white line. The left region shows a complex pattern of fluorescence, with a prominent yellow and orange area at the top and a smaller yellow area at the bottom. The right region is mostly dark blue, indicating low fluorescence. A horizontal white line crosses the image, and a vertical white line runs down the center. The text 'ABA:70203489' is in the top left, and 'VMH' is in the bottom left.
