

ABA:70218312

GP

An axial brain scan image with a blue highlighted region. The image is divided into four quadrants by a vertical and a horizontal white line. The blue region is located in the lower half of the image, primarily in the right half (viewer's right), and appears to be a cluster of voxels in the basal ganglia area. The text 'ABA:70218312' is in the top left, and 'GP' is in the bottom left.
