

ABA: 70218944

IC

A brain scan image, likely an fMRI or PET scan, showing activity in the Insular Cortex (IC). The image is a coronal slice of the brain, with a grid overlay. The activity is represented by a color scale from blue (low activity) to yellow (high activity). A prominent yellow and green cluster is visible in the left hemisphere, corresponding to the IC. Other smaller blue and cyan clusters are scattered throughout the brain. The text 'ABA: 70218944' is in the top left, and 'IC' is in the bottom left.
