

ABA:70227878

A posterior

The image displays a cross-sectional view of a human brain, likely from an axial MRI scan. The brain tissue is rendered in a dark blue color against a black background. A vertical white line is positioned on the left side of the image, and a horizontal white line is positioned at the bottom. The text 'ABA:70227878' is located at the top left, and 'A posterior' is at the bottom left. A small, bright blue region is visible in the upper left quadrant of the brain, indicating a specific area of interest or activation.
