

ABA:70237926

GP

An axial brain scan image showing a blue highlighted region in the left hemisphere. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:70237926' is located at the top left, and 'GP' is located at the bottom left. The blue region is located in the left hemisphere, approximately in the middle vertically and towards the left edge horizontally.
