

ABA: 70429094

CA2/CA3

A fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 region. The image is a grayscale heatmap where blue represents low intensity and yellow/red represents high intensity. A prominent, bright yellow/red spot is visible in the lower-left quadrant, indicating a high concentration of the signal. Other smaller, less intense spots are scattered throughout the brain tissue. The image is overlaid with a white grid consisting of a vertical line and a horizontal line, dividing the field into four quadrants. The text 'ABA: 70429094' is located in the top-left corner, and 'CA2/CA3' is in the bottom-left corner.
