

ABA:70445508

CA1

An axial brain scan image showing a cross-section of the brain. The image is predominantly black, with a central vertical strip of blue color. This blue strip is wider in the middle and tapers towards the top and bottom, representing the CA1 region. The blue color is more intense in some areas, particularly in the upper part of the strip. The image is overlaid with a white grid consisting of two vertical lines and one horizontal line. The text 'ABA:70445508' is located in the top left corner, and 'CA1' is located in the bottom left corner.
