

ABA: 70523739

SCN

The image displays two coronal brain sections, likely from a rodent, showing the location of the suprachiasmatic nucleus (SCN). The sections are presented in a split-screen format, with a vertical line separating the two. The left section shows a small, bright blue spot of activation in the lower-left quadrant, while the right section shows a larger, more diffuse blue area of activation in the lower-right quadrant. The text 'ABA: 70523739' is located in the top-left corner, and 'SCN' is located in the bottom-left corner.
