

ABA:70528527

CA1

A fluorescence microscopy image of a brain section, likely from a rodent, showing the CA1 region. The image is a coronal slice, with the brain tissue appearing as a bright blue, roughly circular shape against a black background. A vertical line runs down the center of the image, and a horizontal line runs across the middle. The CA1 region is labeled in the bottom left corner. The text 'ABA:70528527' is visible in the top left corner. There are some bright spots of fluorescence, particularly one near the center of the brain.
