

ABA:70546251

GP

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue color, with a central vertical line indicating the midline. A small, bright blue spot is visible in the lower-left quadrant, representing a focal area of increased activity or a lesion. The label 'ABA:70546251' is located at the top left, and 'GP' is located at the bottom left. The image is overlaid with a white grid.
