

ABA:70611048

CA1

An axial brain scan image with a blue overlay. The blue area is primarily in the left hemisphere (viewer's right) and extends into the midline. There is a small blue spot in the right hemisphere (viewer's left). A vertical white line is positioned at the midline, and a horizontal white line is positioned above the brain. The text 'ABA:70611048' is at the top left and 'CA1' is at the bottom left.
