

ABA:70719036

CA1

A fluorescence microscopy image of a brain section, likely from a mouse, showing the CA1 region. The image is divided into four quadrants by a vertical and a horizontal white line. The left half shows a coronal section with a prominent, bright cyan-colored band in the CA1 region, indicating high fluorescence. The right half shows a similar section but with significantly lower fluorescence, appearing mostly dark blue. The text 'ABA:70719036' is in the top left, and 'CA1' is in the bottom left.
