

ABA:70946226

GP

An axial brain scan image with a blue highlighted region. The image is divided into four quadrants by a vertical and a horizontal white line. The blue region is located in the lower half of the image, primarily in the right half (viewer's left), and appears to be a cross-section of the basal ganglia. The text 'ABA:70946226' is in the top left, and 'GP' is in the bottom left.
