

ABA: 71020765

GP

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue color, while the background is black. A prominent focal area of increased activity is visible in the lower-left quadrant, colored with a gradient from yellow to red. The brain is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 71020765' is located at the top left, and 'GP' is located at the bottom left.
