

ABA:71378475

OB anterior

A fluorescence microscopy image of a brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant contains the text 'ABA:71378475'. The bottom-left quadrant contains the text 'OB anterior'. The central region, where the lines intersect, shows a bright, localized spot of light, likely representing a specific cell or protein expression. The rest of the image is dark, with some faint, diffuse blueish-green fluorescence visible in the central area.
