

ABA: 71378583

SCN

The image displays a coronal section of a brain, likely from a mouse, with the Suprachiasmatic Nucleus (SCN) highlighted in blue. The SCN is a small, dense cluster of neurons located in the hypothalamus. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 71378583' is located in the top-left corner, and 'SCN' is located in the bottom-left corner. The blue staining is most prominent in the central and lateral regions of the SCN, indicating the presence of the ABA marker.
