

ABA: 71380483

CA1

A fluorescence microscopy image of a brain section, likely from a mouse, showing the CA1 region. The image is divided into four quadrants by a vertical and a horizontal white line. The left half shows a complex pattern of blue and cyan fluorescence, indicating the presence of the ABA marker. The right half is mostly dark blue, suggesting a control or a different region. The text 'ABA: 71380483' is in the top left, and 'CA1' is in the bottom left.
