

ABA: 71613645

M

A fluorescence microscopy image showing a cell with a blue signal. The cell is roughly circular and occupies most of the frame. A vertical white line and a horizontal white line intersect at the center of the cell, forming a crosshair. The blue signal is concentrated in a small, bright spot at the intersection of the crosshair. The rest of the cell is dimly blue. The text 'ABA: 71613645' is in the top left, and 'M' is in the bottom left.
