

ABA:71617022

GP

A coronal MRI slice of a brain. The image is predominantly black, representing the background. A large, irregularly shaped region in the center is highlighted in a solid blue color. This blue region is symmetric about the midline and appears to be located in the basal ganglia area. A white grid is overlaid on the image, consisting of a vertical line and a horizontal line that intersect at the center of the blue region. The text 'ABA:71617022' is located in the top-left corner, and 'GP' is located in the bottom-left corner.
