

ABA: 71656873

M

This image shows a fluorescence microscopy view of a cell. The cell is roughly circular and filled with a blue signal. A prominent, bright spot of cyan and yellow-green fluorescence is located at the center of the cell, where a vertical and a horizontal white line intersect. The rest of the cell shows a more diffuse blue signal. The text 'ABA: 71656873' is in the top left, and 'M' is in the bottom left.
