

ABA: 71724466

CA1

The image displays a cross-sectional view of a brain, likely from a rodent, with a blue color scale overlay. The brain is divided into two hemispheres by a vertical midline. The left hemisphere (viewer's left) shows a complex pattern of blue and cyan highlights, indicating areas of higher intensity or activity. The right hemisphere (viewer's right) is mostly uniform in a darker blue color. A vertical white line runs down the center, and a horizontal white line runs across the middle, intersecting at the center of the brain. The text 'ABA: 71724466' is located in the top left corner, and 'CA1' is in the bottom left corner.
