

ABA:71724726

SPa ventral

This fluorescence microscopy image shows a SPa ventral view. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image displays a complex, irregular pattern of blue and cyan fluorescence, with a bright yellow-green spot at the top center. The right half of the image is predominantly dark blue, indicating a different fluorescence profile. The text 'ABA:71724726' is located in the top left corner, and 'SPa ventral' is in the bottom left corner.
