

ABA: 71724852

DM

The image displays two axial brain slices side-by-side. The left slice shows a focal area of hyperintensity (brighter) in the left hemisphere, which is the side of the image closer to the viewer. The right slice shows a corresponding area of hypointensity (darker) in the same location. A vertical white line separates the two slices, and a horizontal white line is drawn across the middle of both. The text 'ABA: 71724852' is located at the top left, and 'DM' is at the bottom left.
