

ABA: 71836843

LH

This figure displays an axial brain scan with a color scale from blue to yellow. Two distinct, bright yellow-green spots are visible in the lateral hypothalamus (LH) region, one on each side of the midline. The rest of the brain shows a diffuse, low-intensity blue signal. A vertical line is drawn through the center of the brain, and a horizontal line is drawn through the level of the LH activation. The text 'ABA: 71836843' is located at the top left, and 'LH' is located at the bottom left.
