

ABA: 71920454

CA2/CA3

A fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 regions of the hippocampus. The image is a grayscale representation of a blue-stained section. The brain tissue is outlined in white, and the CA2/CA3 regions are highlighted in a bright blue color. The image is divided into four quadrants by a vertical and a horizontal white line. The text "ABA: 71920454" is located in the top left corner, and "CA2/CA3" is located in the bottom left corner.
