

ABA: 71920492

VMH

A fluorescence microscopy image of a brain section, likely from a mouse, showing the ventral medial hypothalamus (VMH). The image is presented in a split-screen format, with the left half showing a control or baseline state and the right half showing a state after ABA treatment. The brain tissue is stained with a blue fluorescent marker. A vertical white line separates the two halves, and a horizontal white line is positioned below the brain section. The text 'ABA: 71920492' is located in the top left corner, and 'VMH' is in the bottom left corner. The fluorescence signal is visible in the lower-left quadrant of the brain section, indicating the location of the VMH.
