

ABA:72004494

VMH

This is a brain scan image, likely a PET or SPECT scan, showing a cross-section of a brain. The image is predominantly dark blue, indicating low signal intensity. A small, bright, localized spot of higher signal intensity is visible in the left hemisphere, near the center. The image is overlaid with a white crosshair, dividing the brain into four quadrants. The text 'ABA:72004494' is in the top left, and 'VMH' is in the bottom left.
