

ABA: 72129296

S0

This is an axial PET scan of a human brain. The image shows a cross-section of the brain with a color scale from blue (low activity) to yellow (high activity). A prominent, localized area of high activity is visible in the central region, likely corresponding to the basal ganglia or thalamus. The rest of the brain shows relatively low, uniform activity. The image is overlaid with a white grid consisting of a vertical line and a horizontal line. The text 'ABA: 72129296' is located in the top left corner, and 'S0' is in the bottom left corner.
