

ABA:73497732

SN

This image is an axial brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented in shades of blue. A prominent focal area of increased activity is visible in the left hemisphere, specifically in the striatum, indicated by a yellow and red spot. The image is overlaid with a white grid. The text 'ABA:73497732' is located at the top left, and 'SN' is located at the bottom left.
