

ABA: 73512516

M

The image displays a 2x2 grid of blue circular spots, likely representing a microarray or a similar experimental setup. The spots are arranged in two rows and two columns, with a small gap between the spots in each row and column. The background is black. In the top-left corner, the text 'ABA: 73512516' is visible. In the bottom-left corner, the letter 'M' is present. The grid is overlaid on a white crosshair that divides the image into four quadrants.
