

ABA: 73606546

VMH

The image displays a coronal section of a brain with a fluorescence signal. The signal is predominantly blue, with several distinct yellow and green spots indicating higher concentrations of ABA. These spots are located in the central and lower-left regions of the brain section. A vertical white line is drawn through the center of the brain, and a horizontal white line is drawn across the lower portion, intersecting at the center. The label 'ABA: 73606546' is positioned at the top left, and 'VMH' is at the bottom left.
