

ABA: 73615782

OB posterior

A fluorescence microscopy image showing a brain section. The image is predominantly black, with a central region of blue fluorescence. This blue signal is concentrated in a structure that appears to be the olfactory bulb (OB) posterior. The fluorescence is somewhat diffuse but shows some internal structure. A white crosshair is overlaid on the image, with the vertical line passing through the center of the blue signal and the horizontal line passing through the middle of the image. The text 'ABA: 73615782' is in the top left corner, and 'OB posterior' is in the bottom left corner.
