

ABA:73787947

CA1

A fluorescence microscopy image of a brain section, likely from a rodent, showing the CA1 region. The image is predominantly blue, with a central vertical dark strip representing the brain's midline. A horizontal white line and a vertical white line intersect at the center. In the lower-left quadrant, there is a bright, elongated blue fluorescent spot. A smaller, isolated blue spot is visible just below the midline. The text 'ABA:73787947' is in the top-left corner and 'CA1' is in the bottom-left corner.
