

ABA: 73817987

CA1

An axial brain scan image showing a cross-section of the brain. The image is predominantly blue, with a central vertical line representing the midline. Two horizontal lines intersect the vertical line, forming a crosshair. The brain tissue is visible as a lighter blue area against a dark background. The text 'ABA: 73817987' is located in the top left corner, and 'CA1' is located in the bottom left corner.
