

ABA: 74047899

MG

This is a brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly blue, indicating low levels of activity. A distinct, localized area of high activity is visible in the left hemisphere, colored in shades of red and yellow. A white crosshair is overlaid on the image, with the vertical line passing through the center of the high-activity region. The text 'ABA: 74047899' is in the top left, and 'MG' is in the bottom left.
