

ABA:74274684

CA1

The image shows a coronal section of a brain slice, rendered in a solid blue color against a black background. A vertical white line runs through the center of the slice, and a horizontal white line intersects it at the midline. The brain slice has a roughly circular shape with some internal structure visible, including a central vertical channel. The text 'ABA:74274684' is located in the top left corner, and 'CA1' is in the bottom left corner.
