

ABA: 74357559

CA1

A fluorescence microscopy image of a brain slice, likely from a rodent, showing the CA1 region. The image is predominantly blue, indicating the presence of a fluorescent signal. The signal is distributed across the brain slice, with a prominent vertical band of higher intensity in the center, possibly representing the hippocampal CA1 region. The image is overlaid with a white grid consisting of a vertical line and a horizontal line. The text "ABA: 74357559" is located in the top left corner, and "CA1" is located in the bottom left corner.
