

ABA: 74635114

IC

The image displays a coronal slice of a brain scan. The brain tissue is represented by a blue color map. A prominent, localized area of high activation is visible in the left hemisphere, indicated by a bright yellow-green spot. The rest of the brain shows lower-level activation in shades of blue. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the level of the activation. The text 'ABA: 74635114' is located in the top left corner, and 'IC' is in the bottom left corner.
