

ABA:74641113

OB anterior

A brain scan image, likely a PET or SPECT scan, showing two distinct areas of increased activity. The image is presented in a coronal or axial view, with a white crosshair centered on the brain. The two areas of activity are located symmetrically on either side of the midline, appearing as bright blue and yellow spots against a dark background. The text 'ABA:74641113' is visible in the top left corner, and 'OB anterior' is visible in the bottom left corner.
