

ABA: 74743255

SCN

A fluorescence microscopy image of a brain section, likely from a mouse, showing the Suprachiasmatic Nucleus (SCN). The image is a coronal section, bisected by a vertical white line. The SCN is highlighted in a bright blue color, indicating the presence of a specific marker. The text 'ABA: 74743255' is located in the top left corner, and 'SCN' is located in the bottom left corner. The background is black, and the overall image is centered.
