

ABA: 74819554

LH

This is a brain scan image, likely an fMRI or PET scan, showing a cross-section of the brain. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant shows a localized area of high activity, indicated by a bright yellow and red color, which is significantly more intense than the surrounding blue and cyan areas. The rest of the brain scan shows relatively low activity, represented by blue and cyan colors. The text 'ABA: 74819554' is located in the top-left corner, and 'LH' is located in the bottom-left corner.
