Pn

The image displays a coronal cross-section of a human brain. A central region, spanning the midline and involving the corpus callosum and surrounding white matter, is highlighted in a bright blue color. This highlighted area has a somewhat irregular, butterfly-like shape. The rest of the brain tissue is shown in grayscale. A thin white vertical line runs through the center of the brain, and a thin white horizontal line is positioned below the brain's base. The text 'ABA:74821606' is located in the top-left corner, and 'Pn' is in the bottom-left corner.
