

ABA:74822832

SPa ventral

The image displays two side-by-side brain scan slices, likely from a PET or SPECT study, showing areas of increased activity in blue. The slices are positioned symmetrically around a central vertical line. The text 'ABA:74822832' is located at the top left, and 'SPa ventral' is at the bottom left. A thin white crosshair is visible, intersecting at the center of the two slices.
