

ABA: 74882525

S0

This is an axial PET scan of a human brain. The image shows a cross-section with a central dark region, likely representing the brainstem or a specific area of low metabolic activity. Surrounding this central region is a bright, ring-like structure, which typically indicates areas of high metabolic activity or tracer uptake. The image is overlaid with a white grid, and the text 'ABA: 74882525' is visible in the top left corner and 'S0' in the bottom left corner.
