

ABA:74882698

S0

This is an axial PET scan of a human brain. The image shows a cross-section of the brain with a blue signal distribution, likely representing metabolic activity. The signal is concentrated in the outer cortical regions and the central structures, with a darker area in the center. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:74882698' is in the top left, and 'S0' is in the bottom left.
