

ABA: 75831725

SC

The image displays a coronal slice of a brain scan. The brain tissue is rendered in a dark blue color. A prominent, bright cyan-colored spot is visible in the upper-left quadrant of the image, representing a focal area of activation. The rest of the brain scan is dark blue. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the center of the activation spot. The text 'ABA: 75831725' is located in the top-left corner, and 'SC' is in the bottom-left corner.
