

ABA: 75934921

SCN

A coronal brain scan image showing two blue-colored regions in the suprachiasmatic nucleus (SCN) area. The image is divided into four quadrants by a white crosshair. The text 'ABA: 75934921' is located in the top-left quadrant, and 'SCN' is located in the bottom-left quadrant. The blue regions are symmetrically placed in the upper half of the brain, representing the SCN.
