

ABA: 75988238

SPa ventral

The image displays two side-by-side brain scan slices. Each slice shows a cross-section of a brain with a blue highlighted region. The highlighted region is located in the ventral part of the brain, specifically in the SPa area. The slices are separated by a vertical white line, and a horizontal white line crosses both slices. The text 'ABA: 75988238' is at the top left, and 'SPa ventral' is at the bottom left.
