

ABA: 76003702

VPM/VPL

An axial brain scan showing activation in the VPM/VPL region. The image is a grayscale slice of a brain with a blue overlay indicating areas of activation. The activation is primarily located in the posterior parietal region, specifically in the VPM/VPL area. There are several distinct blue spots of varying intensity. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the level of the VPM/VPL. The text 'ABA: 76003702' is in the top left corner, and 'VPM/VPL' is in the bottom left corner.
