

ABA:76081901

CA1

This is an axial brain scan, likely a CT scan, showing a cross-section of the brain. The image is predominantly blue, with a central vertical black line representing the midline. A focal area of increased density (appearing as a bright blue/white spot) is visible in the left hemisphere, consistent with the 'CA1' label. The text 'ABA:76081901' is located in the top left corner.
